CENTRAL COMPUTER CENTRE
NATIONAL   INSTITUTE OF TECHNOLOGY CALICUT
User id Requisition Form for High Performance Computing

(To be submitted along with a one page project Proposal *)

Applicant's Name   :

Department   :

Category   :   Faculty / B.Tech./ M.Tech. / M.Sc. / Ph.D / Others

Roll No.** / Employee Userid* :
(* Preferred userid for faculty only)
(**For Students userid is rollno)

Email ID for correspondence   :
(NITC email id)

Contact Number   :

From Date
[Format: DD-MM-YYYY]   :

Account Requested for:

a) GPU Cluster

TERMS AND CONDITIONS

1. Application software available in the system is to be used for academic purpose only (work should be available in public domain either as a thesis or publication or class work) and cannot be used for the monetary benefit of an individual or a company.

2. To protect the security of the system, the user should neither provide his/her password nor allow other individuals to use his/her account. The system administrators may verify the above fact at any point of time. If found guilty, the userid will be cancelled without further reference to the user.

3. Individuals who attempt to use accounts, files, system resources or other facilities without authorization or those who aid other individuals doing so, may be committing a criminal act and may be subjected to criminal prosecution.

4. It is the responsibility of each individual user to know what effects the use of certain programs and/or facilities can have on other user and/or facilities when it may damage system resources or severely inconvenience other users currently using the system.

5. System files (including but not limited to source code and binaries) provided under license is not to be copied.

6. USERID should be renewed at the end of one year.

7. A Project Report with scalability data should be submitted every six months.

8. Student Accounts will be deleted and the user files removed on graduation.

DECLARATION

1. I have read all the terms and conditions listed above. I agree to abide by all the terms and conditions, and I am solely responsible for any violations, intentional or otherwise.
2. I will not intentionally or otherwise, vandalize, deface, destroy or otherwise damage system resources.
3. I understand that the violation of any of the above policy may result in suspension of my account, expulsion from the department and/or the Institute, and possible further legal action (s).
4. I will not use this system for any consultancy related work, either directly or indirectly.

Date: Signature

Guide's Signature with Name :
(Applicable for all Students)

*A short proposal that describes the computing to be carried out and expected outcome.
